RE

PRO

TECHNICAL EXPERTISE

FRONTEND & MOBILE

- React, TypeScript, Next.js
- Responsive UI systems
- Offline-first applications
- REST API integration

BACKEND & DATA

- Python, FastAPI, Flask
- PostgreSQL, Redis
- Statistical, Machine Learning modeling
- Event-driven and workflow detection
- Reporting and document automation

CLOUD & DEVOPS

- AWS, GCP
- Docker, CI/CD
- Git, testing, IaC

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Ceiba-Analytics

Mar 2026 – Present

Software applications, data infrastructure and automation for public- and private-sector clients across West Africa.

Email Archiving & Automation Platform

- Solved critical full-mailbox archive constraints through a data-warehouse solution.
- Automated ETL ingestion to keep historical correspondence searchable and up to date.
- Built bulk email workflows, follow-ups, and reporting on top of the archive.

Full-Stack Applications & Document Assistants

- Built React / Next.js product applications with Python and PostgreSQL backends.
- Delivered on-premise document assistants using semantic search and LLM citation layers.

Data Platform, Cloud & Infrastructure

- Architected cloud-to-on-premise migration and multi-layer data platform solutions.
- Built Kafka + Spark pipelines reducing latency from T+1 day to under 5 minutes.

Founder & Lead Architect — EconInsightLab

2025 – Present

- Built a regional intelligence platform covering 16 West African economies with structured analytics, AI synthesis, and evidence-rich reporting.
- Engineered secure data pipelines, retrieval layers, and executive briefing outputs for strategic use cases.

EDUCATION & CERTIFICATIONS

M.Sc. Computer Science (Software Engineering) — Woolf University

2025–2026

M.Sc. Pure Mathematics (Number Theory) — Université Bourgogne Franche-Comté, France

2023–2024

M.Sc. Mathematics & Applications — Aix-Marseille University, France

2021–2022

Statistical Engineering Degree (M.Sc. level) — ENSEA, Abidjan

2017–2020

B.Sc. Mathematics — UNISAT, Côte d'Ivoire

2011–2014

CERTIFICATIONS

GOMYCODE Software Engineering • HackerRank (Python, SQL, Docker, GCP) • Oracle AI Foundations • Dataiku MLOps & Generative AI • Qdrant Essential • Dremio Lakehouse Associate

- Cohomological Risk Scoring: A Topological Framework for Detecting Structural Inconsistencies in Financial Networks — preprint, 2025

- Monogeneity, index forms and power integral bases of multiquadratic number fields — under review

- 40+ preprints in number theory, combinatorics, applied probability and topological methods for ML
